Queen's 90th Birthday Lunch Friday 10th June

On Friday the 10th of June both Bordon Infant and Bordon Junior Schools will be holding a special day in celebration of the Queen's 90th Birthday.

The main focus of the day will be a picnic lunch on the school field, weather permitting. For this we would love it if you would like to come along and join us. Many people have already booked their lunch but if you haven't you are still welcome to come along and bring your own lunch. We will be eating sat on the grass so do bring along a picnic rug!

Before the lunch the children will be doing lots of fun activities related to the Queen and her birthday. If you would like to come along a bit earlier and join in helping your child we would love to see you. Parents are welcome to come and join in the different activities anytime from **11:00am**. Please sign in at the main school office. This will only be for Year R and 1 parents as Year 2 will be at the Junior School doing one of their transition visits. Year 2 will be back in time to go to the picnic lunch.

After the lunch the children will be going back to class for their normal Friday afternoon activities.

We do hope you can join us for this very special national celebration.

New Building Workshop

The workshop discussing the proposed expansion of both schools we held with Bordon Juniors and the design team from Hampshire was very productive. The workshop was focused on what currently works well at our two schools. The idea was to give the design team a clear idea about what we value and how we use the space.

After half term we will be holding the second workshop. This one is focused on what we would like the expansion and the facilities both outside and inside to be like. As staff we have a lot of ideas about how we want the school site to look and to feel. I would really value as many parents views as possible about how you use the site and what is important to you.

(continued on other side)

I would especially value your thought on what is important for you as parents when you drop off and pick up. How could we make that a better experience for you?

I would also like your views on the relationship the site has with the secondary school once it moves. Do you feel the site should be fenced off into three separate schools or do you think a more open site with clearly defined areas for the different aged children would create a better experience for the children?

What are the key features for you and your child that are important to retain and what do you think can be improved?

If you could use the space below to jot down some thoughts or if you are full of ideas write them down on a separate sheet.

Thank you
